

GÖRLI 24/7: OUR GÖRLI WILL STAY OPEN!

The Berlin CDU-SPD Senate is determined to close Görlitzer Park during darkness. Even the Lohmühlen Bridge over the canal is scheduled to be closed in the future. New fences, lockable gates and turnstiles are to be built for millions of euros. At the same time, the Senate is making massive savings on social projects using the argument that there is no money.

The logic behind the planned Görli closure is the same as that behind the isolation of Fortress Europe. High profits of private corporations should be protected and enforced at all costs. What is being fought is not homelessness and high rents, but homeless people. What is being fought is not poverty and lack, but the poor. What is being fought is not racist exclusion and violence, but those affected by racism. What is being combated is not the causes of refuge-seeking, but refugees themselves.

The planned closure of the Görli does not solve any problems:

- We need more and better services for people who use drugs, places for safe drug consumption and a good health system to which everyone has access.
- We need affordable rents, good housing for everyone and a stop to all evictions. Expropriate real estate companies now!
- We need to raise awareness of and fight against patriarchal violence, sexism and oppression. Offers for FLINTA* and shelters such as women's shelters urgently need to be expanded.
- We need an end to racist exclusion: an end to work bans, residency requirements, illegalization and deportations! All people who live here or come here have the right to a good life!
- We need massive investments in the social sector. We need good daycare centers, schools, good and free sports and leisure activities for everyone and especially for people with little money.

We will not allow our Görli to be taken away from us so that racist, populist symbolic politics can be implemented. Let's prevent the planned Görli closure together!

What is now needed is a diverse, creative, colorful, angry resistance to the Senate plans. You can find various information, print templates and sharepics on our homepage and on Insta. If you do something, plan something or notice something, please send us information!
